\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

So uniformly successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prostration, or Falling of Womb, and Leucorrhoea, that after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay \$500 in cash for any case of these diseases which he cannot cure.

IT STANDS ALONE.—The "Favorite Prescription" stands alone, as the one and only remedy for the distressing and common forms of weakness, prostration, or falling of womb, and leucorrhoea, that after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay \$500 in cash for any case of these diseases which he cannot cure.

Therefore, insist on having Dr. Pierce's Favorite Prescription and turn your back on any unscrupulous dealer who would insult your intelligence by attempting to foist upon you some inferior substitute, under the plea that "it is just as good."

Insist on having the article which has a record of a third of a century of cures and which is backed by those willing to forfeit \$500 if they cannot cure you.

In cases attended by a leucorrhoeal drain a solution of Dr. Pierce's Lotion Tablets should be used conjointly with the use of the "Favorite Prescription." They are sold by all druggists, or sent post-paid to any address, on receipt of 25 cents in stamps.

Send 25 cents in stamps for Dr. Pierce's Common Sense Medical Advice. Address World's Dispensary, Buffalo, N. Y.

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private.

THE UNITED STATES TAKES A HAND.

If the United States has her way and receives the support of Europe, Russia, win or lose, will not have control over Manchuria or any part of China. This fact was made evident yesterday, by a note addressed by Secretary of State Hay to all of the neutral powers.

In this note, which will not be made public verbatim until it has been received by all the powers, Secretary Hay asks co-operation with the United States to preserve the neutrality of the Chinese Empire and to limit the zone of hostilities between Russia and Japan. It is held that the neutrality of the Chinese Empire means that no troops of either of the belligerents will be allowed on Chinese territory, and, therefore, means the preservation of the territorial integrity of China.

It was announced at the State Department that the United States, at the request of Japan, would look after the Japanese interests in Russia and all her possessions. Immediately after receiving the request from Japan Secretary of State Hay directed United States Ambassador McCormick, at St. Petersburg, to inquire of the Russian foreign office if there was any objection to the assumption by this country of the care of Japan's interests during the present war. No objection being made, Ambassador McCormick has been definitely instructed by the State Department to act for Japan and to issue like instructions to the United States diplomatic and consular agents in Russia.

The United States has determined to take an active part in the affairs of the far East. This was decided at the Cabinet meeting yesterday morning, when Secretary of State Hay urged the sending of the circular note to all the neutral powers, calling upon them to co-operate with the United States in preserving the neutrality of the Chinese Empire. At the request of Secretary Hay, orders were issued to Rear-Admiral R. D. Evans, commanding the United States fleet in Asiatic waters, to send the cruiser squadron, consisting of the Albany, Raleigh, Cincinnati and New Orleans, to a point on the Chinese coast about five days' sail from Manila. The squadron goes either to Shanghai or to Hongkong.

It is held that neither Russia nor Japan can object to the presence of an American squadron at a port belonging to a neutral country, such as China constructively is held to be, and even if such objections were made it would be ignored by the United States. Admiral Evans has further been ordered to keep his battleship squadron at Subig Bay, Philippines, ready for any emergency.

It developed that negotiations have been in progress between the United States and the various neutral powers for several weeks looking to the preservation of the neutrality of China in the event of war. Intimations have been received from the various powers which insure the favorable reception of Secretary Hay's note.

The State Department is as yet unwilling to announce whether Manchuria is included in the terms of the note. It is strongly intimated, however, that this is the only logical construction which can be given to the note. In other words, the United States intends that Russia shall not annex Manchuria, and thus destroy the territorial integrity of China.

It is realized that this is a serious step that has been taken by the United States, and, although it is not expected that this country will become involved in the war, every precaution is being taken to see that the American interests in the far East are safeguarded.

The presence of the American cruisers in Chinese waters may be of great use in other ways. There is strong reason for the fear which now exists that there will be serious internal disturbances in China as a result of the war between Russia and Japan. In fact, the Chinese minister to this country has officially informed the State Department that outbreaks against foreigners may be looked for at any time. With this prospect, it may be necessary to use the American naval forces in the various navigable rivers running through the prospective disturbed district.

Just what Secretary Hay means in his note by "limiting the zone of hostilities" is not stated at the State Department. It is believed, however, that he has laid down certain geographical limits in which he proposes that the neutral powers shall allow the war to be fought and that he proposes that both belligerents be made to keep within those stated limits. This action is without precedent.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as cold is contracted. It always cures. For sale by Richard Gibson.

Escaped an Awful Fate.

Mr. H. Higgins, of Melbourne, Fla., writes: "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by E. S. Leadbeater & Sons, druggists. Price 50c and \$1.00. Trial bottles free.
